RAILROAD HISTORY

John Bopp was not present at the meeting as he is still recovering. Best wishes John! However... Tom Kosta gave a report in place of John. The history lesson was from the White Pass & Yukon Historical Society... In 1896, the big story was of gold found in Alaska, the Klondike Gold Rush! A new pass to the gold fields and camps was found and named the White Pass. In the fall of 1897 a toll road was built through the pass but not used. Finally in 1898 the WP&Y RR was started! 2-6-0 #2 loco was the first ever to arrive in Alaska. 1000-2000 men were employed to build the RR. It started at sea level in Skagway, then reached 2915' elevation at White pass. Grades reached 3.9% in some spots. Up to 12 trains operated per day. In 1899 the first passenger train made the entire route. The railroad was a 3' gauge on 10' wide roadbed and cost 10 million to build. It is now a main tourist attraction in the area! THANKS Tom and John! We're looking forward to another lesson soon.

THE NCR CABOOSE MODELING CHALLENGE

Rich Mahaney, NCR Director-At-Large, challenged all of the NCR members to design and build a small diorama involving "a caboose in a second life of service".

Caboose are used for businesses, motels and storage, caboose are used as information booths, and caboose are used in parks, by train stations and in railroad related museums. The diorama should be 12x12 inches and any scale. Besides displaying at a Division meeting, Rich is hoping these will be brought to the Lansing 2018 NCR convention! Are you building yours? **Div 6 will do our member display in August!**
